

GIVE SPACE TO YOUR CHILD'S DEVELOPMENT A PLACE WHERE A CHILD HAS FREE REIN TO EXPLORE, MOVE AND GROW

SpeelRuimte means both 'playroom' and 'leeway' in Dutch. In the attic of a beautiful heritage building in Eindhoven, child-rearing expert Gonny Tromp encourages young children to enjoy uninterrupted, self-directed play in a safe and yet challenging environment - based on the Pikler approach.

This playgroup is suitable for families who want to create mutually respectful relationships with their children by giving their babies the freedom to unfold at their own rate.

These parents want both to understand more about their children's development and to build their confidence as parents. Gonny Tromp will be your guide in each cycle of 10 sessions.

Gonny Tromp

There are two 'parent evenings' per cycle, handy for asking any parenting questions, or to share experiences with other parents.

In all of the sessions Gonny gives insight into your child's development at every milestone, with practical suggestions you can apply immediately. Children of similar age/development level are grouped together (between the ages of 4-24 months). It is recommended to enrol your baby at about 4 months of age to make the most of your child's early years.

It is, however, always possible to stream into a cycle that has already started. Visit my website for more information or pictures. www.gonnytromp.nl

Yours sincerely
